EXPERIENCES

Kampus Merdeka: Study independent at Skilvul

August 2021 - January 2022

- Managed project repositories efficiently using Git and GitHub.
- Leveraged a robust tech stack including JavaScript, React JS, Bootstrap, Tailwind, Redux, and Redux Thunk.
- Integrated dynamic functionalities through RESTful APIs.
- Utilized databases such as MongoDB, MySQL, along with Express JS for backend services.
- Deployed applications seamlessly on Netlify.

Collaborated with a team to develop Balinese, a comprehensive tourism platform featuring user registration, login, interactive maps, and search functionalities for tourist attractions and hotels.

Kampus Merdeka: Study independent at Alterra Academy

February 2022 - July 2022

- Extensive use of Git, GitHub, Whimsical, Miro, and Trello.
- Developed advanced applications using JavaScript, React JS, Bootstrap, and the Redux ecosystem (Redux & Redux Toolkit).
- Implemented dynamic application features through RESTful API integrations.
- Explored GraphQL and Hasura for efficient data fetching and real-time updates.
- Deployed applications seamlessly on Heroku.

Worked with a team to build Bishapay, a flexible app and website for loyalty point agents.
